

IP 2309 is a special polyester fabric. This product has been especially created for digital printing on large-format Inkjets suitable for printing with eco solvent and solvent inks as well as UV-cured and latex inks.

## IP 2309

IP 2309 can be used for advertising banners, textile billboards or posters, textile walls, backgrounds or horizons for trade shows, show rooms, theaters and offices. IP 2309 can also be used as printable table cloth for events and more. Because of its translucent properties, it also functions as an effective product for backlit applications. As the front side of the textile banner renders it impermeable, no covering of the reverse side is required. IP 2309 meets the most stringent requirements with respect to material and printing quality. Laminate: ImagePerfect™ water-based liquid laminate with UV protection.

Specifications	
DESCRIPTION	Polyester fabric
COLOUR	White
THICKNESS	140μ
WEIGHT	135g/m <sup>2</sup>
ADHESIVE	N/A
ADHESIVE STRENGTH	N/A
RELEASE PAPER	N/A
TEMPERATURE RANGE	-30°C to +80°C
DURABILITY (UNPRINTED)	N/A
FLAME RETARDANCY	B1 / M1
TOP COAT	Acrylic
TENSILE STRENGTH	400 / 600 (N/5cm)      DIN ISO 1421
TEAR RESISTANCE	80 / 35 (N)      DIN 53363
SHELF LIFE	2 years, 20°C / 50% humidity
RECOMMENDATION	For optimum quality, please ensure that the media feed adjustment has been completed for this material
