

## PRODUCT DATA SHEET

### Avery® Signmask Grey

issued: 26/03/2001

#### Introduction

Avery Signmask Grey is a self-adhesive masking tape giving a sharp edge finish to the painted graphic. Avery Signmask Grey is a film product, for use in large signage applications on flat surfaces.

#### Description

Facefilm: 80 micron, flexible vinyl film  
Adhesive: ultra-removable, acrylic based  
Backing paper: one side coated white kraft paper, 140 g/m<sup>2</sup>

#### Conversion

Avery Signmask Grey can be cut on a wide range of flatbed and friction-feed cutting plotters. Avery Signmask Grey can be applied to a substrate using Application Tape, similar to applying a decal.

#### Features

- Excellent cutting and weeding properties.
- Good bond to a wide variety of substrates.
- High transparency for precise positioning.
- Easy application of large sized masks.
- Excellent solvent resistance.
- Excellent removability.

#### Uses

Avery Signmask Grey is used to stencil large painted decorations on **flat** substrates, such as rigid truck and van sides, sign boards, plywood, banners, plastics, including glass fibre reinforced plastics.

#### Recommendations for use

Before using Avery Signmask Grey the following documentation should be consulted:

- TB 3.3: "Working procedures for Avery Signmask Films"
